PROFESSIONAL PROFILE

I am a programmer with analytical skills, problem-solving and interpersonal skills. I possess effective oral and written communication skills, and the ability to work in a team and lead projects. Not only that, but I am adaptable and able to deal with unexpected changes and situations, and I have a creative mind that allows me to think outside the box. Not only that, but I am looking for a job where I can apply my programming skills and collaborate with a team to solve problems in order to achieve common goals.
